

## Behind the Scenes

So how do we accomplish so much? How do we provide these services free to the public? The credit goes to our readers and users. The Project for the Old American Century is funded almost completely through donations from readers and sales of our merchandise. We are completely independent and unaffiliated with any political party, candidate, or other organization. We are fiercely independent and will always remain so. Our loyalty is solely to the people, liberties, and Constitution of this great country.

## What is the POAC?

Based in Northwest Iowa, the Project for the Old American Century (POAC) is a grassroots effort to empower and grow the online and terrestrial liberal/progressive movement.

Begun in early 2003 as a response to the infamous neoconservative think tank Project for the *New American Century*, our organization seeks to undo the damage done to our country by the neoconservative movement.

## How do we do it?

We believe that information is power and the more we inform American citizens, the more we empower them.

### The website

Our web presence primarily serves as a daily news aggregator. We publish, on average, 50-60 news headlines a day, pulled from reliable and respected sources across the globe.

*(Continued)* Primarily, our focus is on government and corporate corruption. However, we cover a wide range of topics important to the liberal/progressive community such as civil liberties, human rights, the environment, labor issues, militarization, and more. All of our headlines are archived categorically as a reference source for bloggers and students.

Aside from serving as a news aggregator, the website has several other features of use to the progressive community:

- Online discussion forum
- Audio and video library
- Chart and graph library
- Galleries of topical graphics free to use in blogs and message boards

Check out our site and see for yourself:

### In print

We offer 2 newsletters. One is a free daily email newsletter consisting of our daily news headlines. Additionally, we offer a quarterly postal mail newsletter. The quarterly newsletter serves as an overview of trends in the news and media that the Project has covered in the previous few months.

In the spirit of Thomas Paine, we also engage in pamphleteering. We publish and distribute informative pamphlets (similar to the one you are reading now) on such topics as election integrity, eroded civil liberties, and the neoconservative movement.

### On the air

We actively monitor the media and have created a database of right wing talking points and utilize both flash media and .wmv video files to create our own unique informative videos to serve as an underground media campaign to help debunk this right wing misinformation and help spread the liberal/progressive message.
